

HAN University of Applied Sciences style for Beamer \LaTeX

Marc van der Sluys

<http://han.vandersluys.nl/linux/>

Lectorate of Sustainable Energy
HAN University of Applied Sciences, the Netherlands

Example, December 2014

- 1 Introduction
- 2 Background information
- 3 The important things
- 4 Analysis of the work
- 5 Conclusion

- 1 Introduction
- 2 Background information
- 3 The important things
- 4 Analysis of the work
- 5 Conclusion

- This is just a short example
- The comments in the \LaTeX file are most important
- This is just the result after running `pdflatex`
- The style is based on the TU/e style from <http://www.cs.ru.nl/P.Vullers/beamer.php> and adapted by Marc van der Sluys

- 1 Introduction
- 2 Background information
- 3 The important things
- 4 Analysis of the work
- 5 Conclusion

Slides with \LaTeX

Beamer offers a lot of functions to create nice slides using \LaTeX .

The basis

This style uses the following default styles:

- split
- whale
- rounded
- orchid

- 1 Introduction
- 2 Background information
- 3 The important things**
- 4 Analysis of the work
- 5 Conclusion

- ① This just shows the effect of the style
- ② It is not a Beamer tutorial
- ③ Read the Beamer manual for more help
- ④ Contact me only concerning the style file

- 1 Introduction
- 2 Background information
- 3 The important things
- 4 Analysis of the work
- 5 Conclusion

This style file gives your slides some nice HAN branding. When you know how to work with the Beamer package it is easy to use. Just add:

```
\usepackage{han}
```

at the top of your file.

- 1 Introduction
- 2 Background information
- 3 The important things
- 4 Analysis of the work
- 5 Conclusion

- Easy to use
- Good results
